

Quicken for Windows Conversion Instructions

Express Web Connect to Direct Connect

Introduction

As **Great Basin Federal Credit Union** completes its system conversion, you will need to modify your Quicken settings to ensure the smooth transition of your data. Please reference the dates next to each task as this information is time sensitive.

To complete these instructions, you will need your User ID and Password for each Financial Institution.

NOTE: **Express Web Connect** uses the same User ID and Password as the **Great Basin Federal Credit Union** website. **Direct Connect** for **Great Basin FCU** requires registration. Log into Online Banking. Click **Additional Services**, then **Connectivity for Quicken and QuickBooks**. Set the password you plan to use with your Intuit products. You will need to use your Online Banking User ID and this new password when connecting.

You should perform the following instructions exactly as described and in the order presented. If you do not, your online banking connectivity may stop functioning properly. This conversion should take 15–30 minutes.

Thank you for making these important changes!
